

BERNADEZ, ASHLEY MAE G.
BSCS - 3B

INTERVIEW GUIDE FOR MANILA MANUFACTURING CORPORATION (MMC)

INTRODUCTION/INSTRUCTIONS

My name is Ashley Mae Bernadez, and I am a technology consultant representing TechVision Consulting Inc. The purpose of this interview is to evaluate the current state of operations, identify existing challenges, and assess the company's readiness for adopting emerging technologies.

All responses provided during this interview will be documented or recorded. Before recording, consent will be requested formally. Encourage stakeholders/employees to provide proper, comprehensive, and detailed answers; honesty and accuracy are important to the success of this assessment.

Please take your time in responding to each question, and ensure that your answers reflect both your experiences and perspectives about the company.

INTERVIEWEE INFORMATION

Name: _____

Position: _____

Department: _____

Years of working at MMC: _____

QUESTIONS:

SECTION: BACKGROUND AND CURRENT STATE

1. What are your main responsibilities in your current position at MMC?
2. Could you identify the main obstacles affecting your team's performance?

3. How do you apply technological solutions in your current job functions?

4. Which tools or systems do you consider the "hardest to use" for your tasks?

5. Where do you observe delays or unnecessary steps in your tasks?

SECTION: TECHNOLOGY AWARENESS AND READINESS

6. Rate your exposure or awareness about emerging technologies (such as Internet of Things (IoT), Artificial Intelligence (AI), Machine Learning (ML), etc.)? Rate 1 - 10, followed by an explanation.

7. Has the MMC experimented with emerging technology adoption in the past few years? If yes, what are the results or challenges the company encountered?

8. In your opinion, how willing do you believe employees would be in transitioning to emerging technologies?

9. Are there specific concerns you hold about integrating new technologies into MMC's workplace?

10. Could you evaluate whether MMC is equipped to support technologies such as AI, IoT, ML, etc.?

SECTION: INDUSTRY AND COMPETITIVE ANALYSIS

11. How do you perceive competitors' use of technology in enhancing their market advantage?

12. What industry patterns or innovations do you believe are important for MMC to consider?

13. What possible consequences might arise if MMC fails to update its processes?

SECTION: SPECIFIC TECHNOLOGY AREAS

INTERNET OF THINGS (IoT):

14. How do you think IoT could optimize manufacturing processes?

ARTIFICIAL INTELLIGENCE & MACHINE LEARNING:

15. Could AI or ML provide insights that improve your company's/department's

choices? 16. What tasks do you believe artificial intelligence could handle more

efficiently?

AUGMENTED REALITY (AR)

17. Do you see AR as helpful for employees for training programs or design processes?

CLOUD COMPUTING

18. What advantages and disadvantages might arise from shifting to cloud-based systems?

BIG DATA ANALYTICS

19. In what ways is information currently analyzed to support company's choices?

20. Which insights would be most valuable from improved data analysis?

QUANTUM COMPUTING

21. Could you envision practical uses of quantum computing in MMC's operations?

SECTION: SKILLS AND CAPACITY

22. Do you possess the technical knowledge needed for successful technology adoption?

23. Which training approaches or programs would be most effective in enhancing employee skills and capabilities?

SECTION: BUDGET AND IMPLEMENTATION

24. Could you identify budgetary challenges that may impact technology implementation?

25. What approach should MMC take to determine which new technologies to invest in first?

All responses will be evaluated carefully, and this will serve as a guide to determine MMC's readiness for adopting new technologies. Thank you for participating in this interview. The answer you provide will contribute to a comprehensive analysis of MMC's preparedness for future growth.
